Exhibiting Product Groups

- Marble • Stone • Granite • Travertine • Onyx • Basalt • Ceramic • Cimestone • Mosaic • Decton
- Neolith • Parquet • Wood Veneer • Industrial Flooring • PU Floor Coverings • Epoxy Products and Consumables • Other Surface Coating Products, Equipment and Technologies • Diamond Cutting Products • Tile Lines • Slim Machines • Construction Chemicals (Joint, Fillers and Adhesives)
- Abrasives • Factory Machine Consumables • Plate and Die Cutting Machines

WHY Should You Participate in the Exhibition?

Tap into the region's largest economy and the sourcing hub for natural stone and covering products.

Progressive new capital city relocation (1,300km away on the island of Borneo) starting in 2024 – a massive market for build and design products, supplies and technology. Construction on the new capital would begin on a plot of 40,000 hectares.

Residential and industrial projects are expected to be the top two contributors to the building construction market.

Indonesia's construction market is projected to grow by 5.78% in 2023, covering both civil and public construction.

Moving the capital would cost \$32.7billion of which the state would fund 19%, with the rest from public-private partnerships and private investment.

Be a part of the reference event with opportunities to expand your business network, gain trend and industry insight, and enrich experience.

Overview of the Sector

- Asian construction sector comprises 40% of the total global construction expenditures and it is the biggest local market of the World.
- Asia-Pacific region, where Indonesia is located, dominating natural stone and floor covering sector in the World and in 2023 it is expected that the market value will reach up to 13 billion USD.
- Construction sector is the 3rd biggest sector in the Indonesian Economy and it contributes 40% value add to the annual development of the country.

Green & Sustainable Materials

Includes all green label and eco label certified products and materials used in buildings:

- Adhesive & Sealant • Biodegradable Building Materials • Bioplastic and Biocomposite
- Blind & Shading • Block & Brick • Cellulose • Cement & Concrete • Clay & Clay Grain
- Composite Materials • Cordwood • Cork • Decking • Doors & Windows
- Energy Saving & Efficiency Products • Flooring Products • Glass & Glazing • Hot Water Systems
- Innovative Building Technology • Modular & Precast System • Natural Fiber • Paint & Coating
- Plaster & Render • Polyurethane Foam • Roof and Ceiling Product • Straw & Bale • Structural Panels • Sustainable Aluminium • Sustainable Flooring • Sustainable Steel • Wall Products • Wood
